

ALL AROUND HIGH VISIBILITY

metzger 
Autoteile

The assortment „all around high visibility“ from Metzger Autoteile offers a huge selection of harmonized quality products. Several new articles are available for you in this range. The variety of products is covering the increasing demand, binding customers and raising sales:

- wiper linkages, also as a complete unit with motor
- wiper arms, partially including wiper rubber
- wash water pumps
- wiper motors
- expansion tanks
- window winders

» Wiper linkages and wiper arms

Erosion or corrosion can be the reasons of failure. It is generated through the material mixture of aluminium and steel or humidity. The used materials are weather dependent. Drive linkages and wiper linkages complete the offering.

- perfect accuracy
- very good functionality
- OEM-quality

You are receiving a huge market coverage of fast movers for front and back systems of various automotive manufacturers.

» Wiper motors

These components are extremely resistant and work reliably under all conditions. The wide range of wiper motors is improving your offer in the segment „all around high visibility“.

- produced according to OE-rules
- high vehicle mileage covered
- compact construction

» Expansion tanks

In the offer you can find tanks for coolant, brake fluid, power steering and hydraulic oil. Selected tanks are available with the suitable cap.

- several actual vehicle types
- usage of most modern plastic material
- first class quality

ALL AROUND HIGH VISIBILITY

metzger 
Autoteile

» Wash water pumps

The reason of failure can be multifaceted: leakage, dehydration, coldness. A limited view is the painful consequence. The successfully established program of Mono-, dual- and headlight cleaning pump is covering the growing demand.

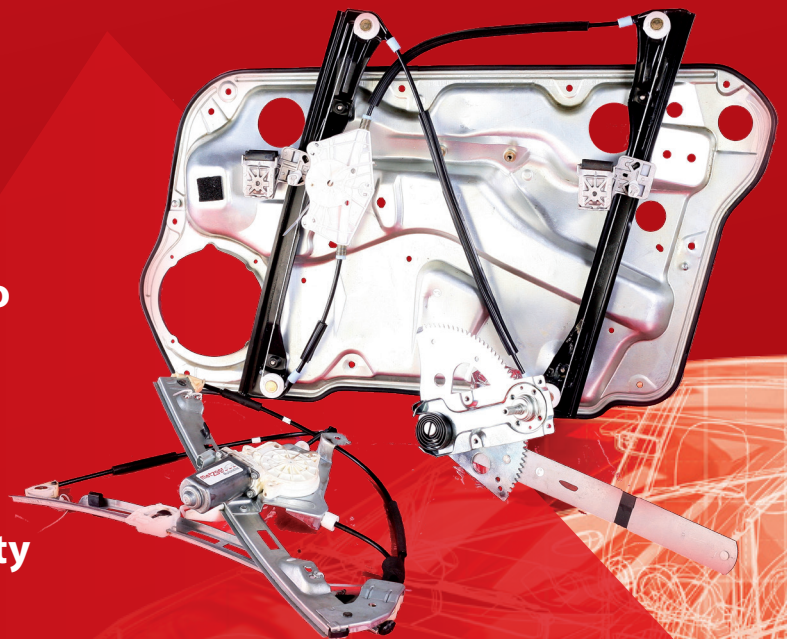

- huge choice with smaller required space
- safe and long-lasting
- top quality at favourable prices

» Window winder

A wide range of window winders and accessories. Beside the window winders with and without motors we are also offering a new user-optimised solution for the exchange. The pre-mounted window winders for VAG vehicles allow a time-saving fitting to fulfill the streng deadline requirements.

- high fitting accuracy
- excellent quality
- low fitting effort
- reduced garage costs
- easy handling
- lucrative price-performance ratio
- exact TecDoc information

Convincing service and best quality

- reliable and fast delivery
- individual, customized stock proposals
- regional sales support
- attractive program with a huge number of original spare parts
- excellent, certified product data quality in TecDoc
- highest quality standard through certified manufacturer of the automotive industry.
