

HIDRIA GLOW PLUG

Metzger 
Autoteile

- **High market coverage**
- **Original equipment quality**
- **Attractive conditions**

Glow plugs by one of the leading European OE-suppliers for nearly all diesel vehicles. By covering more than 96% of all vehicles, we have a comprehensive assortment at a really attractive price-performance ratio. MADE IN EUROPE!

- Metal pencil-type glow plugs in 2-coil technology (heating and control coil)
- Very short pre-heating time and fast, reliable responding properties
- Efficient cold-start control and optimized fuel consumption
- Proper fitting accuracy and permanently high processing quality
- Long lifespan due to perfect aligned glow behavior
- As an OE supplier all of the manufacturer's requirements are fulfilled in engine comfort and Euro-Norms
- Innovative glow plug technology causes less pollution in the start-stop phases

The automotive industry has been trusting in the modern diesel technology and the high quality standard of Hidria for a long time – you too?
